I understand that:

As an employee of _____, I may be collecting, accessing or analyzing student information of a personal and sensitive nature.

The responsibility of fulfilling this assurance of confidentiality begins with me as an employee of _____.

In recognition of this responsibility, I agree to:

1. Keep confidential the names of all respondents / participants, all information and opinions collected during the data collection process, and any information learned incidentally while collecting the data.
2. Refrain from discussing or disclosing, except privately with research and evaluation staff members, information that might in any way identify or be linked to a particular individual.
3. Terminate data collection or analysis immediately if I encounter a respondent or begin reviewing a record for an individual whom I know personally, and contact my supervisor for further instructions.
4. Take precautions to prevent access by others to PII data in my possession by: (1) keeping hard copies of data collection materials, notes, and records in locked files with limited access; (2) separating files with identifying information from other records; (3) storing electronic copies of data files on secure drives with limited access and/or password-protected; (4) using encryption and or password-protection on electronic files with identifying PII or sensitive information when transporting data; and (5) adhering to all aspects of my organization's data security policy.
5. Refrain from reporting or publishing any aggregate data representing a cell size of fewer than five individuals if such data has the potential to identify the individuals.
6. Properly destroy or render unreadable hard copies and or electronic copies of files that contain PII through shredding and or deleting when those files are no longer applicable to current research or tracking.
7. Take all other actions within my power to safeguard the privacy of respondents / participants and protect the confidentiality of information I collect, manage or analyze.
