

## Kids Hope Alliance Presents:

### Implementing Results-Based Accountability™ Virtual Training and Support

As part of Kids Hope Alliance’s commitment to helping achieve greater results for the children, youth, and families you serve, KHA is integrating the Results-Based Accountability™ (RBA) framework into the contracting and reporting process. RBA is a disciplined way of thinking and acting to improve entrenched and complex social problems using data.

Developed by Mark Friedman and described in his book, *Trying Hard is Not Good Enough*, RBA is being used in all 50 United States and in more than a dozen countries around the world to create measurable change in people’s lives, communities, and organizations.

To assist providers and the community in understanding and implementing the RBA framework, KHA will be hosting two 3-hour interactive virtual RBA 101 webinars in the next months and several 1-hour follow-up virtual Technical Assistance: Ask the Expert (TA) sessions in December and January.

The RBA 101 webinar will cover the principles and framework of RBA, common language, and terminology, and the “Turn the Curve” thinking process which drive continuous improvement for greater impact in organizations. A clear focus on RBA through an equity lens will also be included. The webinar will end with an interactive “Turn the Curve” exercise to experience the power of RBA.

The virtual TA sessions will provide an opportunity for agency leaders to ask questions and support development of performance measures for their programs.

The trainer for the webinars and TA sessions will be Dan Duncan. He is a senior consultant at Clear Impact, the premier RBA Consulting/Training firm. He has more than 20 years of experience implementing RBA through his work as a United Way professional and training others on how to use it.

“Turn the Curve” thinking will be part of the quality improvement of Kids Hope Alliance. These sessions will be recorded via Zoom and later offered through CollaborNation® as an online self-paced course. Participation in these sessions either live or as a pre-recorded virtual training on CollbarNation® are highly encouraged.

To attend the sessions, click on the links below to be directed to CollaborNation for registering.

Date	Session Title	Time	Link
